Hello,

As discussed on today's call, please find attached SOPs for the Vapor Pin and an optional secure cover. Included in the SOPs are pictures of the device. There are additional pictures on the website: <http://www.coxcolvin.com/VaporPin.php>

CRA has used this device at other sites, including in Ohio. Additionally, the vapor pin was included in the Michigan DEQ January 2012 Draft VI Guidance.

Please let us know if there are any objections with the use of vapor pins for any sub-slab soil gas probes that may be required under the mitigation work.

Thank you,

Valerie
